

Hidden Treasures: What Museums Cant Or Wont Show You

While there are more than 15,000 museums in our country, visitors get to see only about five percent of any institutions collections. Most museums simply dont have room to display everything theyve got. However, there are a wide variety of surprising and intriguing reasons that, for example, the Smithsonian Institution doesnt display its collection of condoms, Floridas Lightner Museum locks up all but one of its shrunken heads, and a world-class stash of Japanese erotica (shunga) art was kept in the Honolulu Museum of Arts storage until only recently. Each item or collection included in this volume is described and placed in context with stories and interviews that explore the historical, social, cultural, political, environmental, or other circumstances that led to keeping that object or group of objects out of public view--the ultimate museum buffs voyeuristic experience. Color photographs of the artifacts are included.
