

Tyndale Select NLT: Select Reference Edition

Tyndale Select Bibles are the highest quality bindings available in the New Living Translation. Select Reference Editions are the premier Bibles in the Tyndale Select line. Select Reference Editions deliver Gods enduring word in a fresh, yet timeless, reading experience. Each full-grain leather Bible is meticulously handcrafted with excellence, and Smyth-sewn with the greatest of care to ensure durability, flexibility, and a lay-flat binding. Handsome editions are available in black or brown full-grain goatskin leather. Goatskin leather covers are edge-lined to maximize the suppleness for a luxuriously soft leather Bible that is a pleasure to hold. Other premium features of the goatskin leather edition include perimeter stitching, two ribbon markers, a gold foil frame around the inside cover, and luxurious art-gilded page edges, revealing red under gold gilding. The attractive single-column interior of the Select Reference Edition makes this Bible enjoyable to read. The line-over-line setting and top-quality paper maximizes the brightness of the page and minimizes show-through for optimal readability. Other premium interior features include the generous 8.75 font, spacious margins, and over 40,000 cross references. Printed, bound, and meticulously handcrafted at Jongbloeds premier bindery in the Netherlands, Select Reference Editions are Tyndales finest-quality Bibles available in the New Living Translation.
