

Catching Kate: The Acceptance Series

Catching Kate is book 1.5 in The Acceptance Series. Breaking Kate should be read first After almost four years, Michael Matthews has come face to face with the love of his life. To say it didnt go quite as he envisioned is an understatement. Never in a million years would he have imagined that his best friend, Daniel, is the new man in Kates life. Once their explosive evening concludes and everyone goes their separate ways, Mike takes the time to calm down and plan his next move. If theres one thing that calms him its Kate, even if its just memories of her. Mike has four hours before he sees her again and gets to plead his case. Instead of sleeping, he spends his evening remembering every detail of their relationship from the beginning. Experience Mike and Kates love story from the start, all from Mikes point of view. Find out why he left Kate in pieces and learn just how far hell go to make her fall in love with him all over again. *Mature Content Warning* This book contains situations not intended for persons under the age of 18.
