

Advanced Accountancy: Theory and Practice (HB)

Accounting is the discipline with the oldest historical culture, being the first to be recognized by humanity when Adam and Eve were made to account for what they did in paradise. It is also the only discipline that will come into play in the Hereafter, where everybody would be raised up as an accountant - to account for all they have done during their life time on earth! Accounting is a service-providing discipline, with a rich theoretical background, which makes available information (especially financial) to guide various decision-making processes. Business owners, creditors, managers, prospective investors, government and its agencies, employees and even the general public seek accounting information to guide them when taking various informed decisions about reporting entities and the environment within which they operate. This book addresses the historical accounting culture, its theories as well as its practices. It is made up of fifteen chapters, covering various historical, theoretical and practical aspects of Accounting, ranging from accounting standardization to financial reporting. The book is an attempt to address some of the lacunae in advanced accounting issues, both in theory and in practice. Students of advanced accounting theory and practice at the professional and academic levels in Universities, Polytechnics and Professional Institutes would find the book an essential companion.

Associate Professor Kabiru Isa Dandago, B.Sc., M.Sc (Acct), MBA, PhD (Econs), ACA, MNIM, MNES, MIMC, is the Immediate Past Dean, Faculty of Social and Management Sciences, Bayero University, Kano-Nigeria (2004-2008). He is currently (since June 2008), the Chairman, Bayero Consultancy Services Unit of the same University. He has been a lecturer in Accounting in the Department

of Accounting of the University since 1990. Dr Dandago has taught Cost Accounting, Management Accounting, Financial Accounting, Taxation, Auditing and Investigation, Public Finance, Business Mathematics, Mathematics for Social Sciences and Research Methodology in Accounting to various Undergraduate, Post Graduate Diploma and Masters Students. He has attended many national and international conferences on Accounting and related disciplines, including the 17th World Congress of Accountants (WCOA) and the 12th World Congress of Accounting Historians (WCAH). He has published many books and journal articles in Accounting, Taxation, Auditing, Industrialization and general Management, which are enjoying wide readership in Nigeria and beyond. He is married with children.
