----If you were to pass me on the street, you probably wouldnt even look twice. Im that normal. Im just like you, only wealthier. I have it all. The kids, the family, the dog, a house on the hill. Hell--Im so cliché, I even have a white picket fence. I guess you could say that Ive dotted my Is and crossed my Ts. But what I also have--what no one sees in yoga, or at Nieman Marcus, or during the dreadful Ladies Who Lunch charity events I attend (because only God knows why), and perhaps most importantly, in the school pick up line--are secrets. Deep, dark, deadly secrets. We all keep secrets, dont we? We all have thoughts in our heads, things we do, things about us that if people knew, theyd be shocked...right? Well, what if one day we just decided to let the cat out of the bag, so to speak. What if we decided to let the whole world in on our dirty little secrets? And what if along the way, as we were spilling those secrets, we realized that things arent always what they seem and with that knowledge, it changed the whole story? In this book, Im laying it all out there. The unraveling of my life. My coming undone. What one mightve seen had they been paying attention. What Ive found in life is people often believe lies

before theyll believe the truth. Well, here it is, in a nutshell. Ill let you decide which is which.
