

Arrogant Aussie: The Rupert Murdoch Story

Who is Rupert Murdoch and why are so many people saying such nasty things about him? For one thing, he is America's new press lord. He has accumulated power and influence far beyond anything dreamed of when he inherited a modest income and a failing newspaper in Australia. In New York City alone, he owns the New York Post (on which he employs no American in key editorial positions); New York magazine (don't ask its founder Clay Felner about him!); and the Village Voice. In Chicago he owns the Sun-Times. From Fleet Street in London to Figueroa Street in Los Angeles, he is hated, feared, despised. He hires and fires on impulse. No employee is safe with him. He can't understand any of it. Arrogant Aussie is an in-depth study of a phenomenon in the world of print. Rupert Murdoch has gathered newspapers and magazines and book publishing houses the way others would collect postage stamps. He sent rumbles throughout the British Empire when he bought the London Times. He enriched himself by more than thirty million dollars by playing the current Wall Street trivia game of greenmail. And yet, with all his money and all his power over the lives of people, he remains an enigma even to many of those closest to him. When he breaks his promises, he doesn't understand why people under his economic whip are disturbed. He feels above accountability. Arrogant Aussie tells the intimate story of the Australian invader. It was written after more than a hundred interviews and more than a year's research on three continents. Arrogant Aussie offers a lively, irreverent portrait of a press maverick and the countless institutions he controls as well as some of the people whose careers he has destroyed on a whim. It is a commentary on the current state of the art of capitalism as it affects what we read.
