

Badass - Hidden Danger (Book 3): A Billionaire Military Romance

When you're dead, living is easy. When you're playing dead, it's a lot more complicated. Link and Grace survive the initial onslaught. But by who? And why? A jealous ex-husband doesn't have this kind of power. Of course, obsession has very strange bedfellows. And Link's a ghost. Aren't ghosts supposed to already be dead? Destiny brought them together. Fate joined their hands. Love would be their ultimate weapon if the world played fair. But it doesn't. Not even close. So where do they go, where do they hide, how do they stay together when there are hidden dangers around every corner? *Destinies Collide* is the third novella in the *Badass* series, a hot billionaire military romance. You should read the series in this order: *Badass: The Prequel* *Badass: Collision Course* *Badass: Destinies Collide* *Badass: Hidden Danger*
