

Beyond 2020: A Vision for Tomorrows India

India 2020 is about to become a reality. Are we ready? As Dr Kalam and Y.S. Rajan had contended in their landmark vision document, India 2020, India has steadily moved towards becoming one of the top five economic powers in the twenty-first century. Indias growth story has seen new opportunities and emerging technologies that make faster and more inclusive growth viable. In Beyond 2020, Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. India can still make it to the list of developed nations in a decade. This timely book provides an action plan for that transformation.
