

Blossoms - A Journey Through Natures Forms and Colours 2017 (Calvendo Nature)

Who wouldn't love to linger on the intricate beauty of the Queen of Flowers, to enjoy the colourful diversity of a tulip in close proximity, or to encounter a peony up close and personal? There are plenty of flower calendars, but this calendar uses its attractive close-ups to display the delicate structures of various flowers in a very special way. The viewer sees the poppy in every fine detail and is left to marvel at the lily without distraction; all the photos are standalone on a white background, uniquely reflecting the splendours of nature. Calvendo calendars are premium products - a bit more pricey than others but with added benefits: Our calendars always look beautiful on your wall because we produce them locally with premium paper and sophisticated spiral binding, ensuring easy turning of pages and flat hanging against the wall. A protective transparent plastic cover sheet provides added stability. Treat yourself to a Calvendo calendar and you get something that looks better all year round.
