

## Bury Me in Her Eyes (Multilingual Edition)

A world record. A challenge like no other. The first of its kind... From the anonymous author of The Unwords, comes the first multilingual work of literature ever created. Twenty eight distinct languages, join forces for the first time in one single publication, interrelating seamlessly with each other as they take you on an unforgettable journey through the interwoven continuum of space and time. Written in poetic verse and expanding into full-page, full color illustrations, the books multilingual structure is a truly unique experience that will be hard to replicate. Each language has its own unique voice; its own exclusive role in the progression of the story, with absolutely no repetition of content from one language to the other. Two lovers, separated by the longest possible distance. A story of sacrifice and unyielding persistence... waiting for someone to unlock its secrets. Also included in this edition is Laid to Rest; the remarkable true story behind the books creation and an honest look into the life and struggles of the anonymous author, as he strives to erase the line that separates a work of literature from a work of art.
