

Creating the Good Will: The Most Comprehensive Guide to Both the Financial and Emotional Sides of Passing on Your Legacy

A breakthrough approach to wills and estates, designed to help you make the hard decisions while keeping your family happy

In the world of wills and estate planning, tax saving and asset protection are typically the paramount goals; family dynamics, emotions, and leaving a meaningful legacy are secondary considerations at best. The result, predictably, is often bickering, backstabbing, unmet expectations, and even litigation after the will is read.

Creating the Good Will focuses on the issues that most books in this category miss but that matter most in the end. As a former estate planning attorney and now as a coach, Elizabeth Arnold has dedicated her career to helping people develop wills and estate plans that create harmony, not havoc. She puts the emotional well-being of loved ones ahead of clever tax-saving structures and teaches readers how to protect their relationships and values as much as their hard assets. In this unique book, Arnold explains how to deal with the emotional baggage and communication blindspots that can undo even the most iron-clad legal document. Filled with resonant anecdotes from her personal and professional life, along with practical information about wills, estate plans, guardianship agreements, trusts, and more, Creating the Good Will is a priceless resource for anyone who wants to leave a legacy of warmed hearts, not heated heads.
