

Cleopatra and Antony

In 44 bc, Julius Caesar was murdered on the Ides of March. His mistress, Cleopatra of Egypt, fled back to Alexandria with their little son. Mark Antony, Caesars friend and henchman, who, according to some accounts, was already besotted by the beautiful Cleopatra, took up her sons case before the Senate. But they refused to recognize him as one of Caesars heirs. Civil war broke out, and after the defeat of Caesars murderers, Antony took control over the East. Summoned to his headquarters in present-day Turkey, Cleopatra made her entry at dusk on a scented, candlelit barge: and so began one of the greatest love stories of all time - an eleven-year love affair that created the ancient worlds most famous celebrity couple. The affair became all-consuming and fired the lovers with the ambition to create a new order. Had they succeeded, our world today might have been very different. Filled with murder, intrigue, civil war and great battles, the tragedy of Cleopatra and Antony has fascinated the world for two millennia, and has been depicted by everyone from Chaucer and Shakespeare to Richard Burton and Elizabeth Taylor in the iconic 1960s film. Now Diana Preston has gone back to the original sources and delved into the real history behind the propaganda and the myth, to breathe new life into this epic love story.
