

## Working Well: Managing for Health and High Performance

THE HEALTH/PRODUCTIVITY CONNECTION \*Youve got an important presentation to give at noon. You were counting on your secretary to make last-minute corrections and prepare the information packets. Shes just called in sick. Your personal productivity plummets as you neglect other projects to get your presentation ready. \*At last the new computer system is ready to become operational. Unfortunately, the start-up has been postponed indefinitely. The Director of Information Services has had a heart attack, and the work is that hell be out at least three months. You can practically see the orders that will be lost or delayed until the new system is running. As the examples above show, when illness or disability strikes, it can become a managers nightmare. Wellness in the workplace is not just a matter of health care benefits or annual checkups. Wellness goes right to the heart of how your people perform. Its the recognition that managing for health is managing for productivity! Working Well introduces the practical, amazingly effective PERKS system of managing for health and high performance.
