Cary Simmons is a kindergarten teacher. Her boring life leaves her craving a summer of adventure, a kick start into an exciting future. However, when her car breaks down in the middle of the California desert, she decides to make the most of it. After all, a biker bar holds some pretty adventurous men, right? Travis Mathers cant believe his eyes when a pretty little thing walks into the roughest bar in Ripley wearing a flowered sundress. Instantly, the retired Navy Seal knows this woman needs his protection, and hes going to give it whether she wants it or not. Besides, who could possibly have more to show her about adventure? Can Travis convince Cary that he can turn around her boring life? Can Cary fight the allure of a risk-taking alpha male? How long can they resist becoming attached?
