

Holy Bible - Modern Literal Version: The Open Bible Translation - 2013 Update

This is cutting edge version of the BOLD Letter Edition of The Modern Literal Version, New Testament (2017 Beta, 6-3-2016, black & white, with words of God, Jesus & The Holy Spirit in BOLD print. This is a new format with 11 pt. font with the main text in 2 columns. Some blank space and a few blank pages are purposely left to allow one to write in notes. This version is about 90 pages smaller than the wide margin version. The MLV New Testament is as close to the original Koine Greek Bible as anyone has ever achieved and it is in Modern English. The MLV strives to be error-free. There is even an email to submit recommendations should you find a thus saith the Greek fix.

Quick Overview: The Modern Literal Version uses the Majority Text (The New Testament in the Original Greek Byzantine Textform 2005 Compiled and Arranged by Maurice A. Robinson and William Pierpont). Two distinct and opposite techniques are used in translating the New Testament from the Greek. The Modern Literal Version is the first type, a literal translation sometimes called word-for-word translation. The second and most common in the past 30 years is to paraphrase the Greek into English. These are: dynamic equivalence, free style, thought-for-thought, better than a word-for-word, essentially literal and so on. We understand the value of paraphrases for those looking for a Bible that reads as easily as a newspaper, however we feel strongly about having a Bible without opinions of what was meant but instead faithfully reproduces the original Greek Bible into Modern English. One way to look at this is: if there was a court case with a particular document that was being used as evidence and this document was in a foreign language would a thought-for-thought translation be acceptable? The document we are talking about here is the Last Will and Testament

of our Lord Jesus & Savior. The goal of everyone who worked on the Modern Literal Version was to keep any form of commentary or paraphrase out of this translation as is humanly possible. The MLV is not sold for profit because there is no denomination, publishing company, foundation or government behind it. All Christian groups have had the opportunity to submit fixes or help. The only uninspired traditions kept in the MLV are: punctuation and capitalization; chapter and verse numbers; and book order. The Open Translation Bible: The Modern Literal Version Bible is considered finished, although it has been open for revision by anyone since 1998. Our utmost desire is to have a translation that has no errors and we believe that the best way to produce an error-free translation is to keep it open to the public in the same manner as open-source software is to programmers. We have found no better way than our open translation idea in its 15 years to achieve this goal. Absolutely anyone in the world is able to contribute, for sure, the few million who have visited the Christian Library have had that opportunity. 100,000+ proofreaders last year who all could have submitted a thus saith the Greek if they could find one. The MLV is the only bible translation ever produced that created a software module (e-Sword: MLVDC+Greek) that can be used to check or correct any of its translation. The MLV has been available in its entirety for free in PDF or HTML for years from www.MLVbible.org. To God is the glory, power, and dominion forever and ever. Amen
