

## MrQuickPicks 1-2-3 Business Plan to Unlocking Cars for Profit!: The Step-by-Step Guide to Make Money Now as a Mobile Locksmith and Roadside Services Provider

Did you ever wonder how much money the person who just unlocked your car actually makes for a living? He just charged you \$60 for thirty seconds of actual work, but surely he doesn't get to keep all of it, or does he? He must have overhead, a storefront, expensive equipment and years of training? Maybe or just maybe he works from home, out of his car, with minimal tools and experience, advertising online and pocketing \$200-\$300+ per day. Perhaps he's knocking down six-figures a year, driving around town providing roadside services to other people who are trying to get to their real jobs (working for someone else). Meet Jon Taylor, founder of Quick Pick Lockout Service and MrQuickPick Lock & Road Service. A former hotel manager, Jon would often assist his guests with their automotive needs, calling on auto clubs to help with a tire change, dead battery or keys locked in a car. Sometimes it would take so long for help to arrive that he would simply grab some tools and do it himself. That's when he realized he could put his own business savvy and strong work ethic into starting and running his own lock & road service. His company, Quick Pick Lockout Service, would gross over half a million dollars in its first three years and, in the process, win AAAs prestigious Members Choice Award for three consecutive years. What started as a small business venture unlocking cars with a friend quickly turned into a multi-state enterprise! He has since taken this model for success and helped numerous others (including disabled veterans, like himself) get into business for themselves as MrQuickPick licensees within their own hometowns. Now MrQuickPick takes you step-by-step through the entire process, covering everything from the tools and training to the successful marketing plan that enables this business model to thrive for practically anyone, anywhere!
