

## Online Dating: 7 Internet Dating Secrets you Simply Must Know

Internet Dating is no longer the preserve of the geeks and the terminally uncool of a few years ago. As the world becomes even more connected and social media continues to redefine the concept of friendship more and more couples are meeting via online dating websites. Craig Beck is a former clinical hypnotist and sales persuasion expert. When his fourteen year marriage came to an end he found himself back in the dating game. He quickly discovered the rules had completely changed since his high school days. No more plucking up the courage to approach a girl you liked, now she was free to inspect and critique you from the comfort of her own home. Craig quickly realized that the vast majority of dating website members were making relationship preventing mistakes in their profiles and photographs. In Online Dating he guides you through the secrets you simply MUST know if you want to find the man or woman of your dreams online.
