This 1 hour and 45 minute video will get you on track to your absolute highest GPA in 3 days or less
- **Peak Performance Study Aid**
This almost magical, web-based software will allow you to study at your highest level of mental acuity and your lowest level of stress and apprehension without any extra effort
- **Bonus report #1: Statistics every US residency hopeful should know**
- **Bonus report #2: Imagine... YOU scoring a 97 or higher on USMLE® Step 1**
Winning strategies for your top score on Step 1 of the United States Medical Licensing Exam

**CLAIM YOUR
PEAK PERFORMANCE
SOFTWARE INSIDE!**

To Current and Future Medical Students Who Will Settle For Nothing Less Than a 4.0 GPA This is a realistic, clear and definitive BLUE PRINT that will allow you to achieve whatever academic success, impact or recognition you desire. This system is not based on theory or guess work. It is based on hands-on, personal experiences documented while Anna and I were elbow-deep in the trenches of our first two years of medical school. This system is about getting you on track to your absolute highest GPA in 3 days or less - faster and easier than ever before. ...It is about doing it in a way that is more certain and more secure than you ever thought possible. ...It is about doing it without the need to use caffeine, Red Bull(R), Monster(R), or other ineffective quick-fixes for mental exhaustion. ...It is about doing all this and enjoying an infinitely better lifestyle too. But first, I want you to be very clear about a couple of things: We did not even apply to US or Canadian medical schools because our unremarkable college GPA and MCAT(R) scores made garnering admission to any one of them statistically impossible. Also, we did our first two years of medicine in a country that you have likely never heard of. So if you think taking advice from future international medical graduates like us is bad idea, then NO, this system is not for you. Do not read on. On the other hand, if you would like to know how a couple of regular students attained a perfect grade point average in medical school and competed at the top 5% of their class of 350] highly talented individuals, then YES, this program is for you. If you would like to learn and be able to apply the same study strategies, secrets and tips that allowed us to hold our own against the National Board of Medical Examiners (we scored 97 and 99 on USMLE(R) Step 1 respectively - well above the mean score attained by test takers from US and

Canadian medical schools), then YES, this system is absolutely for you. If you want to enjoy maximum success, security, independence and prosperity in medical school, then this might be the most rewarding information you will ever read. Because in it, two formerly frustrated college students reveal the simple system that immunized them to failure, catapulted them to the top of their class in medical school and can do the same for you. Sincerely, Cesar and Anna Orellana PS: This is a complete course which includes this 160 page step-by-step manual, a 1 hour and 45 minute quick start video, a web-based software application designed by medical students and 2 bonus reports.
