

# Wheelspin: The Agile Executives Manifesto - Accelerate Your Growth, Leverage Your Value, Beat Your Competition

This book provides a manifesto for the Why, What, When, Where, How and Who of agility. Using stories from his experiences as a manager, executive and CEO in the Oil and Gas, Aerospace and Automotive industries, Mike Richardson explores agility in everyday terms. He explains how aircraft accidents, the BP Oil Spill and Toyotas safety recalls relate to your agility challenge in your role in your business. He explains the agility of a jet fighter plane and a jet fighter pilot and how you can employ similar techniques in your organization.
