The Better Way To Crowd Fund Ebook Series was written for one purpose to illustrate real life examples of experts including authors, professionals, filmmakers, artists, life coaches and business coaches who are leveraging crowd funding and social rewards technology to disrupt their industry. In this issue we profile John Lee Dumas a military veteran, author and entrepreneur who is expediting the transformation of the book publishing & expert industry. With zero training as a book publisher and less than a few years delivering expert advice on his EOFire podcast, Dumas has done the unthinkable. He has leveraged his military training to mobilize a team of illustrators, book marketers and related professionals to design, implement and deploy a Kickstarter crowd funding campaign that raised \$453,803 in just 45 days, breaking established self-publishing records. John has clearly demonstrated his ability to set and meet goals; but, more importantly he has provided the best evidence that crowd funding is disrupting the book publishing and expert industry. We encourage you to read Crowd Funding is Revolutionizing Book Publishing & The Expert Industry to learn the secrets John Lee Dumas used to presell \$453,803 worth of books and apply his proven formula to create your own crowd funding success story. **SUBMIT YOUR OWN SUCCESS STORY:** If you have created a similar success story or planning an innovative crowd funding campaign we want to learn more.
