

Sterling Test Prep DAT Organic Chemistry Practice Questions: High Yield DAT Questions

Scoring well on DAT is important for admission into dental school. To achieve a high score, you need to develop skills to properly apply the knowledge you have and quickly choose the correct answer. You must solve numerous practice questions that represent the style and content of the DAT questions. Understanding key science concepts is more valuable than memorizing terms. Organic chemistry is one of the subjects tested on the Survey of the Natural Sciences section and is a challenging discipline. This book provides 720 practice questions that test your knowledge of all organic chemistry topics tested on the DAT. The explanations for these questions provide detailed solutions and cover a broad spectrum of concepts that you must be well versed in order to answer related questions in the Survey of the Natural Sciences section on to do well on the test. By reading these explanations carefully and understanding how they apply to solving the question, you will learn important organic chemistry concepts and the relationships between them. This will prepare you for the test and you will significantly increase your score. All the questions are prepared by our science editors who possess extensive credentials and are educated in top colleges and universities. Our editors are experts on teaching sciences, preparing students for standardized science tests and have coached thousands of undergraduate and graduate school applicants on admission strategies.
