

Teaching about Technology: An Introduction to the Philosophy of Technology for Non-philosophers (Contemporary Issues in Technology Education)

This book provides an introduction to the philosophy of technology that is accessible to non-philosophers. It offers a survey of the current state-of-affairs in the philosophy of technology and also discusses the relevance of that for teaching about technology. The book includes questions and assignments and offers an extensive annotated bibliography for those who want to read more about the discipline.
