

The Celtic Animal Oracle Book and Card Pack

A lushly illustrated deck of 25 cards and accompanying explanatory book guide us through the mysterious and arcane world of Celtic animal spirits. Unlike most rival decks, which focus on Native American ritual, this pack presents the viewpoint of traditional Celtic magical practice, and takes you on a journey through a rarely discussed shamanic system. Along with intriguing background material on the lore and attributes of each animal archetype, you'll learn how to locate a personal familiar, or power animal, and interpret the spread from a practical, mental, and spiritual perspective. The animals presented include the mad March Hare, associated with the coming of spring and new life; the Owl, considered the death bird; plus the Bear, Cat, Dog, Raven, Swan, Goat, Lamb, Mouse, Pig, and 14 others.
