

The Far Side Out To Lunch 2004 Desk Calendar

Our nation grants its citizens certain unalienable rights--among them life, liberty, and the pursuit of happiness. Ever notice how your job seems to interfere with all three of these? It could be argued, in fact, that work is downright unconstitutional. So, what can you do about it? You could take up a picket sign and demand your right to slack...but all that yelling can be tough on the throat. You could quit in a huff of righteous indignation...but you've likely developed expensive habits like eating and sleeping indoors. Take heart, weary worker! Gary Larson--a true American hero--has ridden to the rescue. For the past two decades, Larson has toiled in the humor mines to bring forth shiny cartoon gems universally known as The Far Side. Lots and lots of these cartoons found humor in the absurdities of the workplace, and now we've gathered the very best of these work-related cartoons in a desk-friendly weekly calendar. So now you can work and pursue happiness at the same time. How can we ever thank him for his years of selfless cartooning? Supreme Court Justice Larson has a nice ring to it, don't you think?
