

The Kings Revenge: Charles II and the Greatest Manhunt in British History

Set in an age of intrigue and espionage, this is the story of the greatest manhunt in British history: the quest for retribution upon the traitors who brought about the death of Charles I. When Charles I was executed, his son Charles II made it his role to seek out retribution, producing the biggest manhunt Britain had ever seen, one that would span Europe and America and would last for thirty years. We shall pursue and bring to their due punishment those bloody traitors who were either actors or contrivers of that unparalleled and inhuman murder. So vowed the nineteen-year-old Prince of Wales, following the beheading of his father Charles I in January 1649. From exile, he instigated what became the biggest manhunt the nation had ever seen, spreading out across Europe and America and lasting for over thirty years. When he ascended to the throne in 1660 as Charles II, his search for revenge intensified, with show trials in London and assassination squads scouring foreign countries. Many of the most senior figures in England were hanged, drawn and quartered; imprisoned for life; or consigned to a self-imposed exile, in constant fear of the assassins' bullet. History has painted the regicides and their supporters as fanatics, but among them were exceptional men, including John Milton, poetic genius and political propagandist; Oliver Cromwell's steely son-in-law, Henry Ireton; and the errant son of an earl, Algernon Sidney, whose writings helped inspire the founders of the American Revolution. Cromwell himself was subjected to the most bizarre symbolic revenge when, though long-dead, his body was disinterred and beheaded. Set in an age of intrigue and betrayal, *The King's Revenge* brings these remarkable figures vividly to life in an engrossing tale of ambition, double agents, and espionage.
