

The Transmigration of the Seven Brahmans: A Translation from the Harivansa of Langois

This is a short translation from the Harivansa, a Sanskrit text which is technically a Purana. This translation is notable because the translation is by Henry David Thoreau, the prominent 19th century American philosopher and writer. About Author: Henry David Thoreau (born David Henry Thoreau; July 12, 1817 May 6, 1862) (pronounced like the word thorough, with emphasis on the first syllable)[1][2] was an American author, poet, philosopher, abolitionist, naturalist, tax resister, development critic, surveyor, historian, and leading transcendentalist. He is best known for his book Walden, a reflection upon simple living in natural surroundings, and his essay Civil Disobedience, an argument for individual resistance to civil government in moral opposition to an unjust state.
