

## The Wave Maker: The Story of Theme Park Pioneer George Millay and the Creation of Sea World, Magic Mountain and Wetn Wild (Sea World Education)

What began as a biography of George Millay, the Father of the Waterpark Industry, ended up being both the intriguing life story of a great and successful risk-taker AND the first-ever, in-depth look at the creation of two theme park genres which today entertain more than 100 million people a year, worldwide.

**KEY FEATURES**

- 1 First book ever written about George Millay. He has waited until he felt comfortable telling it all. And tell it all, he did. Friends and family who have read the manuscript have commented they learned new things about a man they have known for years. He has a reputation for not wanting to talk personally about himself or his family.
- 2 George Millays personal story is one of a risk-taker and is an excellent business primer on how calculated and creative risk taking and deal making can pay off.
- 3 This is the first in-depth look at the creation and the early history of the SeaWorld parks, now owned by Anheuser-Busch; Magic Mountain, now owned by Six Flags; and the Wetn Wild parks, now owned by Universal and by Palace Entertainment. The book chronicles the deals, the people, and the events that shaped these parks - from concept through construction and the early years of operation.
