

Zen Druid II. Book of Symbols. A year of spiritual growth.

A day by day set of spiritual guidances based upon the received Zen Druid Symbols. Each days Symbol is interpreted with a focus on personal development and spiritual growth. Based upon the Celtic Tree Calendar, this is a gentle yet powerful process of self development. You know you will be different in 12 months why not be different for the better? Each days challenges and opportunities are developed from the bedrock of each days Symbol. Although received in a random series, the Symbols form a coherent, logical system of study for the individual looking to reach their own personal moments of enlightenment. Indeed, each Celtic Tree month forms a separate unit of development accessible by all, independent of each persons level of personal development. As we change through life, so too do the messages the Symbols impart. So whilst this Book of Days covers a twelvemonth, it is always waiting for when the individual wishes to dive back into the challenges of growth and renewal.
